Employment History

Impart links Ltd
October 2007 to present

Strategic and Management Consultant
Consultancy, coaching & interim management.

from January 2006

Consultant & Performance Coach
Consultancy

2004 to January 2006

Partnering Champion & Lead Performance Coach
Proto-typing and developing Project Performance Coaching through interactions with operational staff, collaborative projects, strategic alliances, public & private sector clients and the supply chain.

1996 to 2003

Lead Construction / Project Manager
Operating within a successful 6 year Strategic Partnering Programme, involving the construction of three large projects, value circa £120m, within the utilities sector.

(The performances of the construction team were recognised as a centre of excellence; demonstrating through operational achievements, KPI metrics, partner and client feedback. Within this environment I initially developed PPC).

Qualifications, education and training

BEng in Civil Engineering
MSc in Engineering Management (Award pending)
CITB Contracts Manager
Life Coach Diploma
Executive Coach Advanced Certificate

and

November 2004 – with PPC I was the finalist in the UK National Business Awards.

Over the past seven years I have developed and proto-typed a leading edge management process, Project Performance Coaching (PPC). The process is concerned with strategic risk management, innovation, CRM, knowledge management and enhancing organisational performances. The development of PPC was supported by MSc studies in Management.

Construction Skills Certification Scheme (CSCS) registered.
